## Bell, Democrat, Will Have No Opposition, But Five Republican Candidates for Governor All Claim That They Will Receive Endorsement.

By Associated Press.  
SAN FRANCISCO, Cal., August 15.—The test of the new California new direct primary law will be made tomorrow. State candidates from governor to justice of the peace, including congressional, legislative and county candidates will be nominated. No general election has ever attracted more interest in the state than this trial of the primary law, and in no previous balloting has it been more difficult to forecast the results.

With Bell assured the democratic nomination for governor without any opposition, the interest of voters of that party is confined to local contests.

In the fourth congressional district there is a struggle between R. P. Troy and Walter MacArthur, the labor leader, for the democratic nomination, while Julius Kahn will be chosen by the republicans to succeed himself.

Insurgency is an issue in the fight for congress in the second district, where William Kent, "reformer," is trying to replace Duncan McKinlay. In the fifth district, E. A. Hayes, "insurgent," is opposed to mayor C. W. Davidson of San Jose.

The managers of the five candidates in the republican gubernatorial

race each profess confidence of victory. Johnson expects to gain a plurality in the southern part of the state and will maintain a lead in the central and northern sections.

Johnson's headquarters concede 60,000 votes to Curry, 40,000 to Anderson, 30,000 to Stanton and 10,000 to Ellery. The estimates are based on a total vote of 225,000, which is 70 per cent of the registration of republican voters.

Curry bases claims of victory on his strength in San Francisco and the machine he has built up in the state. Tom Keough, Curry's manager, claims the secretary of state will reach Tehachapi pass with a majority of 30,000 and will carry San Francisco by 10,000.

Anderson, candidate of the regular republican organization, hopes to draw his majority from the stalwart vote. This will offset the vote of the Lincoln-Roosevelt league which is placed behind Johnson.

Ellery claims he will be elected by a plurality of 5,000.

LOS ANGELES, Cal., August 15.—Stanton claims that Los Angeles county will give him a majority of 10,000 and that the vote will be split among the northern California candidates in such a way that none of them can come to Tehachapi with any great majority.

## NATIONAL SENDS OUT FOUR BARS

By Associated Press.  
Four bars of bullion from National was shipped by Wells Fargo express from Winnemucca to the San Francisco mint last evening. The value of the bullion was not given out, but judging from past shipments it was probably worth not less than \$30,000. The bullion was from the Stall lease on the property of the National Mining company at National. This property is maintaining its steady output of bullion, yesterday's shipment being the second for the month of August, the first having been of ten bars and worth about \$75,000, or a total of \$105,000 sent out this month.

At this rate the August bullion shipment from National will easily equal those of June and July. In those months the bullion production was respectively \$250,000 and \$280,000.—Winnemucca Star.
